Delete Creditmemo Extension for Magento

Module Name: HelloMage_DeleteCreditmemo
Version: 1.0.3
Release Date: 17/02/2025
**Developer: jicksonkoottala@gmail.com**
Document: Setup Guide

Installation Instructions

1.   Extract the ZIP

2.   Make sure if you have a folder names
     "**HelloMage**" inside your "**app/code**" directory. If
     not, please create the folder "**HelloMage**"

3.   Create a folder called **DeleteCreditmemo** inside
     HelloMage

4.   Copy all unzipped content inside
     DeleteCreditmemo

Below is how the folder structure should look and make
sure you follow the same.

5. Run the Magento 2 deployment commands.

If your deployment mode is set as developer, execute the following

```
rm -rf var/di/* var/generation/* var/cache/* var/log/* var/page_cache/* var/session/* var/view_preprocessed/* generated/code/* generated/metadata/* pub/static/*

php bin/magento setup:upgrade
php bin/magento setup:di:compile
```

If your deployment mode is set as production, execute the following.

bin/magento setup:upgrade
bin/magento deploy:mode:set production
